

Colleges United Soccer Club

Policy 03 – Play with a Friend

Colleges United understands that there are situations where players would like to be assigned to the same team as one or more of their friends. The completion of the 'Special Requests' section on the Player Registration form is a formal request to the Club for your child to play with one or more of their friends.

This policy is aimed at players in the under 6, 7, 8, 9 or 10 age groups as children older than this participate in the assessment and grading process (Policy #04) to determine team allocation. Wherever possible, players who played at the Club last season are automatically allocated to that same team for the upcoming season.

If a parent has strong views for their child not to play in the same team as last year, completion of the 'Special Requests' section on the Player Registration form can also be submitted to the Club indicating this request.

Due to team size restrictions and other logistical factors, it may not be possible to satisfy all requests.

Dissatisfaction with player assignments

Player's parents/guardians who are dissatisfied with the team assignment of their child can choose to withdraw the player from the Club and may be entitled to a full or partial refund of their registration fees paid at sign-on in accordance with Policy #02.
